and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Outrageous, I use my phone for emergency only and I can barely afford the current cost.

It is already hard to justify 15.00/month for 1 or 2 calls.

Is your goal to eliminate people who carry these phones for emergency use?

Is there no end to the fees and taxes you want?

My home phone line is currently taxed at approximately 90% of the basic service counting taxes and your fees, are you planning the same for wireless?

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

David
